MORE INFORMATION

NETWORK EVENTS

6 half-termly networking events held at the end of the school day. These will be an opportunity to build your personal network of local colleagues across Devon and Cornwall, hear some of the latest news and opportunities from the region and to explore some relevant best practice.

CAREER CPD

This is a significant priority for many schools as they seek to encourage learners to aspire towards STEM careers. Not just for a careers lead, knowing how to integrate careers into lessons regularly throughout KS3 and beyond will begin to make these links and opportunities clearer and more familiar when shared by all STEM teachers throughout the curriculum.

STEM CLUBS CPD

Get support from your local STEM Club Champion who can demonstrate how to get started, enrich, and help you gain recognition and funding for an extra-curricular STEM club in your school. An excellent approach to ensuring learners gain positive, practical STEM experiences and help your school to meet the Gatsby benchmarks.

EDTECH SUPPORT

Benefit from focussed support for your whole school to adopt new Educational Technologies to support teaching and learning – much of which will already be at your fingertips. Integrating across many processes in your school, this support can take you on a truly transformational journey.

COMPUTING CPD

Secondary computer Science can be a daunting challenge for many teachers, whilst others are keen to upskill themselves further. With a range of programmes available there are options to suit a variety of teachers and significant bursaries which make this an excellent value opportunity. Scan the QR code to find out more detail about the bursaries available.

STEM AMBASSADOR TWILIGHT

STEM Ambassadors offer a unique opportunity to promote careers, industry opportunities and science capital in the classroom. This bespoke session will provide excellent enrichment to the other actions you implement throughout the package.

COACHING

For an additional £300, you can opt-in to 2 coaching sessions for the member of staff who has booked onto the package. This highly individualised opportunity allows for focussed discussion with an experienced facilitator to address areas that may be of more concern or interest to you.

Optional add-on

Please contact us for further information on any of the above.
